

Technical Requirements for Chinese Pole show 'Funky Fidelma'

Length of show: 30-40 minutes

Rigging time: 30 min to test the rigging set up (on the day of performance or before)

Set-up time: 10 min before each show

Take-down time: 10 minutes

Space required: - Circle of approx 5-6 metres radius (depending on anchor points available)
- Ground needs to be reasonably flat
- 5 metres clear height

Other requirements: - The show is based around a Chinese pole (4.8 metre high pole, coated in rubber) which needs two fixed anchor points (within 4-5 metres radius of the pole) that can be loaded up to 80kg each (example: trees, lamp-posts, railings, vehicles, water/sand filled weights etc).
